

## Chapter 1: What Are Transformers?

# The new paradigm of AI

Foundation models that can do all NLP tasks, CV, and more with one model!

Partially trained-transformer models that can do one or a few tasks

Classical deep learning tasks when sufficient

Classical machine learning algorithms (LR, KNN, KMC, MDP, and other)

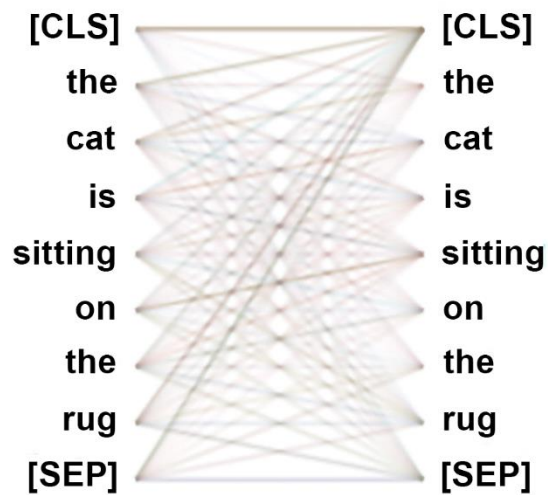

Expert systems and rule bases when necessary

Classical coding to help build the AI pipelines

Layer: 0 ▾

### Document

A user visited the AllenNLP website, tried a transformer model, and found it interesting.

Run Model

### Model Output

A user visited the AllenNLP website, tried 0 a transformer model , and found 0 it interesting.

## Chapter 16: The Emergence of Transformer-Driven Copilots

Convert my shorthand into a first-hand account of the meeting:

We get used to hearing dialogs that only people that know each other well understand. Consider the following dialog between Jane and Tom, two developers, mumbling their way through the day while they are getting down to work in an open space:

Tom: "hi"

Jane: "yeah sure"

Tom: "Coffee?"

Jane: "Nope"

Tom: "Cool. You're trying then."

Jane: "Yup"

Tom: "My wife stopped too a few months ago."

Jane: "Right. She got it."

Tom: "Sleep better?"

Jane: "Yeah. Sure. "

Tom: "I told you. Drinking too much of that

Summary:

Generate

**Summary:**

Tom and Jane are two developers at a company that are getting started for the day. They are both drinking coffee. Tom asks Jane if she wants any coffee or if she has tried giving it up. Jane says she has, and that she is feeling better. Tom's wife also quit coffee and Tom asks if Jane slept|

Generate

260

**Summary:**

Tom asked Jane if she wanted to work on Java and she declined. He asked if she wanted to work on it and she said she would, then he told her that his wife stopped drinking it and said she was sleeping better. Then Jane said she was, too.

**Summary:**

Tom and Jane are two developers that are talking to each other about their day. Jane doesn't drink coffee, but Tom is giving it away for free. Tom's wife also stopped drinking coffee, and is sleeping better. Tom also tells Jane that he told her that she was drinking too much coffee|

Tom: "hi"

Jane: "yeah sure"

Tom: "Want some?"

Jane: "Nope"

Tom: "Cool. You're trying then."

Jane: "Yup"

Tom: "Sleep better?"

Jane: "Yeah. Sure. "

Summary: Tom and Jane are discussing the meeting they had with the team yesterday. Tom is telling Jane that she's in charge of getting the team to try to sleep better, and Jane is telling Tom that she slept well.

```
def draw_scatterplot(x, y):  
    plt.scatter(x, y)  
    plt.show()
```

Accept solution 2

```
def draw_scatterplot(x, y):  
    plt.scatter(x, y)  
    plt.xlabel('x')  
    plt.ylabel('y')  
    plt.show()
```

Accept solution 3

```
def draw_scatterplot(x, y, xlabel, ylabel, title):  
    plt.scatter(x, y)  
    plt.xlabel(xlabel)  
    plt.ylabel(ylabel)  
    plt.title(title)  
    plt.show()
```
